

The Opes ICE solution is a suite of tools which was developed in partnership with BDO Tax and Accounting s.a. that enables financial institutions to easily manage and expedite the process of complying with the new IRS electronic filing and reporting requirements of Form 1042-S (Foreign Person's U.S. Source Income Subject to Withholding). ICE enables you to upload all the required information in batch form and then automatically generates the necessary IRS formatted E-files and electronically submits them to the IRS. ICE also mass produces client copies of the 1042-S form.

Meet IRS E-Filing Deadline

ICE enables you to meet your IRS e-filing requirements on time and accurately, mitigating the possibility of incurring IRS penalties (up to \$1,500,000 per year).

Simplified Process

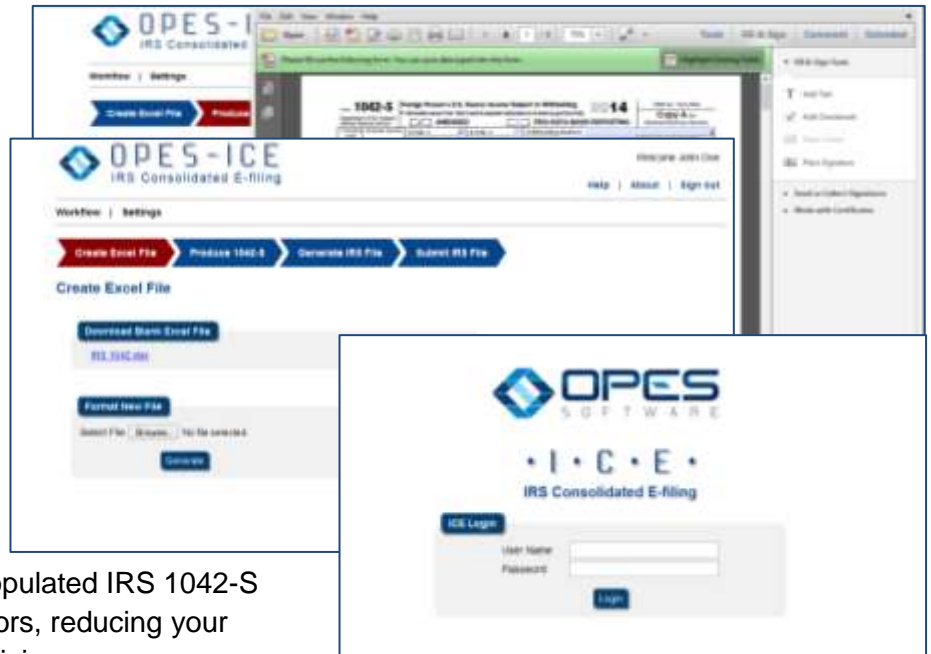

Improve your customer's experience with streamlined processes and reporting that meet regulatory requirements.

Reduce Risk & Increase Efficiency

Electronically generated IRS E-files and populated IRS 1042-S forms mitigate the possibility of manual errors, reducing your operational risk and improving reporting efficiency.
